Overview

MPC 5 is a 575,858 sq ft build-to-suit logistics warehouse located within one of the UK's largest and most advanced logistics parks. Positioned near the A14 and adjacent to Midlands Logistics Park, it offers excellent connectivity to London and key transport corridors. This logistics development is ideal for occupiers seeking scalable industrial and logistics real estate in a high-performance commercial environment.

Features

This unit provides flexible logistics warehouse space tailored to a wide range of operational needs. Whether you're seeking a merchandise warehouse or logistics industrial development, MPC 5 offers the adaptability and infrastructure to support evolving business requirements. The site also features a dedicated nature trail, enhancing employee wellbeing and promoting a balanced working environment.

Sustainability

As part of our commitment to responsible real estate development, MPC 5 contributes to a greener future for logistics and industrial real estate.
