GLP Wrocław IV Logistics Centre – warehouse space for modern business

GLP Wrocław IV Logistics Centre is a modern warehouse facility located within the city limits of Wrocław. Its location in the heart of Lower Silesia ensures excellent access to both national and international transport routes. The proximity of the A4 motorway and the city's developed infrastructure guarantee efficient distribution and quick access to the city centre. This investment has been designed for companies that value logistical efficiency and a high-quality business environment.

Strategic access to skilled workforce

The facility is located in one of the fastest-growing metropolitan areas in Poland – the 1.2 million-strong Wrocław agglomeration. Being within city limits provides access to a broad labour market, as well as the region's strong educational and technological base. GLP Wrocław IV Logistics Centre also benefits from convenient access to public transportation, facilitating employees' daily commutes. It is a location that combines operational efficiency with workforce accessibility and comfort

Sustainable development and high-quality design

GLP Wrocław IV Logistics Centre has been designed in line with the latest sustainable construction standards. The facility combines modern technologies with solutions that promote efficient use of energy and resources. This investment was created with long-term value and user comfort in mind, while minimising environmental impact. It is a space where innovation meets responsibility, providing a solid foundation for sustainable business growth.
