## Warehouse for rent in Łódź – discover GLP Łódź IV Logistics Centre

GLP Łódź IV Logistics Centre is located directly at the A2 „Emilia” junction, just a few kilometers from Łódź and the A1 / A2 „Stryków” junction and in the immediate vicinity of the planned S14 route. The project offers up to 71,600 m<sup>2</sup> of high standard space in the logistic center of Poland. Thanks to its location on the main Polish transport route, it will meet the expectations of the most demanding tenants.

## Flexible warehouse space in the centre of Poland

The logistics centre offers modern, functional warehouse space tailored to tenants' needs, with the possibility of adaptation for production, e-commerce, or logistics operations. With a storage height of up to 12 metres, increased floor load capacity, and numerous loading docks, it guarantees smooth goods handling. The facility also provides modern office areas, a well-developed road infrastructure, and access to a highly qualified workforce. Every detail has been designed for maximum operational efficiency and user comfort, making it an ideal solution for fast-growing companies.

## BREEAM standard and GLP's sustainable solutions

GLP Łódź IV Logistics Centre meets high environmental standards confirmed by the BREEAM certification. The facility is equipped with energy-efficient LED lighting, a smart metering system, and infrastructure ready for photovoltaic panel installation. Thanks to modern technologies and ESG-compliant solutions, the building ensures low operating costs and minimal environmental impact. This is an investment that combines sustainability with functionality, supporting businesses in achieving both operational and ecological goals.
