GLP Sziget II Logistics Centre – Budapest's Premier Industrial Hub

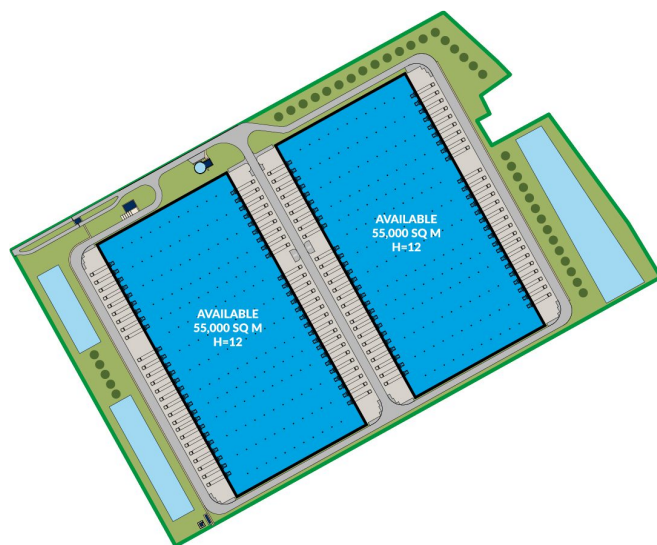

GLP Sziget II Logistics Centre – Budapest's Premier Industrial Hub
Located just 25 minutes from central Budapest and only 3 minutes from the M0 motorway, GLP Sziget II Logistics Centre offers unrivalled accessibility for national and international distribution. Positioned next to a major retail park, it provides convenient access to local amenities and excellent public transport links.

Smart Design and Custom Flexibility

The facility offers an impressive 110,000 m² of total area, with a 12-metre clear height and 7 t/m² floor load capacity. Featuring a dock every 650 m², GLP Sziget II is built for operational efficiency. Tenants can choose from flexible Build-to-Suit options, ensuring that each space is tailored to specific operational and technical requirements.

Sustainability and Performance

Certified by BREEAM, the development meets the highest environmental standards, combining energy-efficient design with advanced logistics infrastructure. With optimal location, scalability, and eco-conscious construction, GLP Sziget II Logistics Centre sets a new benchmark for sustainable and high-performance industrial real estate in Hungary.
