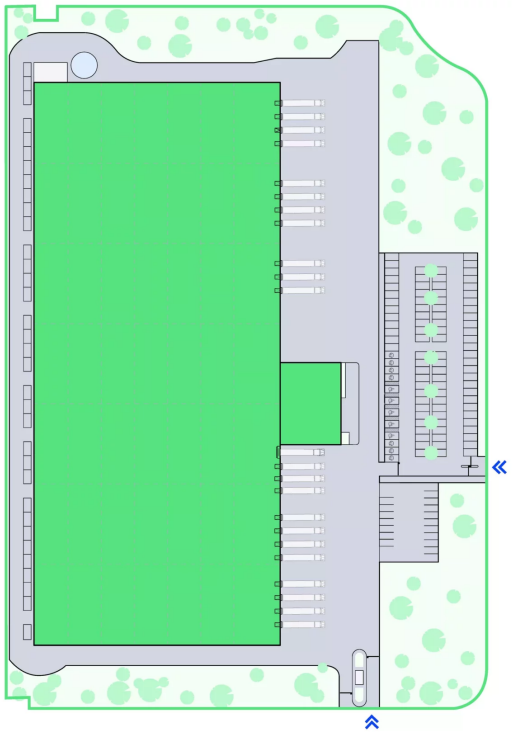
Sergio García

Asset Manager
Spain

Marq Logistics Pinto is a state-of-the-art logistics facility located in one of the main logistics corridors in southern Madrid. Offering 18,906 sqm of available space on a site of more than 42,000 sqm, the asset has been designed to meet the requirements of distribution operators, e-commerce businesses, last-mile logistics providers, and specialised logistics users. Its strategic location, just 22 km from Madrid city centre with direct access to the region's main transport routes, enables efficient operations and excellent connectivity to key national markets.



Highlights

Located within one of Madrid's leading logistics hubs, Marq Logistics Pinto combines outstanding connectivity, operational efficiency, and modern design. Its 18,906 sqm of logistics space, excellent access to Madrid's motorway network, and configuration tailored to contemporary logistics requirements make it an ideal solution for distribution, e-commerce, and last-mile operators.

ESG

Sustainability is an integral part of the design of Marq Logistics Pinto. The asset has achieved a BREEAM Very Good certification and incorporates features focused on energy efficiency and occupant wellbeing.
