# HAMBURG-SOUTH (BISPINGEN) UNIT 1 LOGISTICS CENTRE

## HAMBURG ECONOMIC REGION

The Hamburg region is internationally known as a first-class business location. Hamburg is a leading logistics metropolis in Northern Europe. As the largest universal port in Germany and the third largest seaport in Europe, Hamburg Port is an important foreign trade centre and at the same time a hub for road haulage, rail transport and inland shipping. A dense network of regular shipping lines connects Hamburg with over 800 ports around the world. In addition to the port, Hamburg has another important transport hub in the form of its globally oriented airport, the fourth largest in Germany.

The Hamburg-South Logistics Centre is located in the south of the Hamburg metropolitan region in the municipality of Bispingen directly on the A7 motorway, the central traffic artery across Germany, which connects the Scandinavian region with the south.

With this excellent connection, not only the port of Hamburg, but also Bremen, Hanover and Wolfsburg are easily accessible.

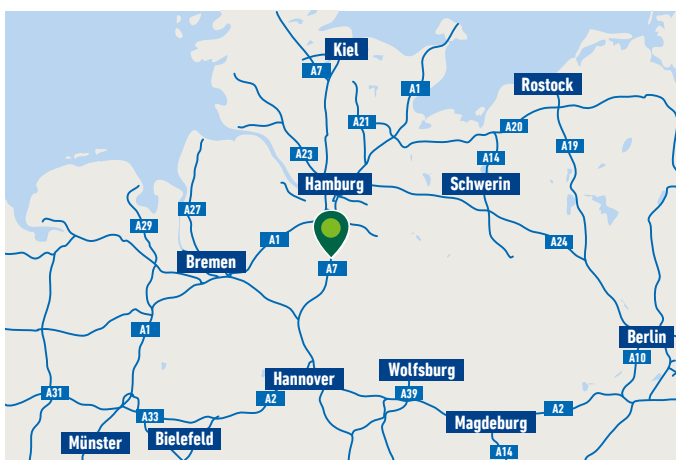

In addition, the location is connected to the local public transport system via the bus stop of the bus line 154.

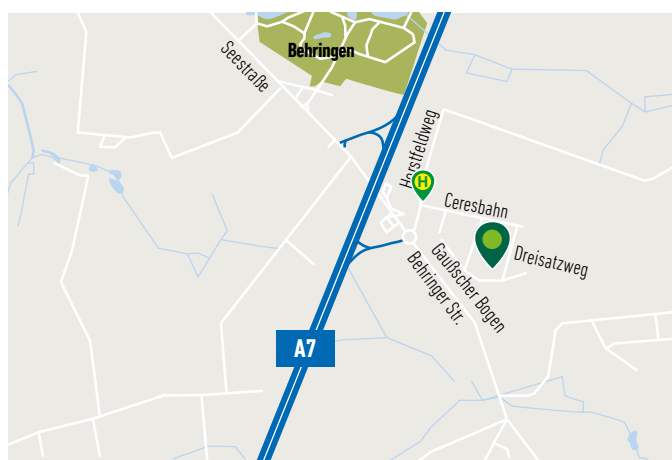

### Strategic Location
