LAST MILE SOLUTION

Businesses can save money, deliver faster, and boost customer satisfaction with last-mile solutions, turning the final leg of their supply chain into a competitive advantage.

SUSTAINABLE AS STANDARD

Sustainability benefits are built into every development at no extra cost, including water harvesting, optimising natural light and implementing building environmental analytics to monitor energy usage.

The right location

# Strategic access to Central London

Park Royal is the most important industrial area in Inner London, with a concentration of manufacturing and distribution functions located in both new and older industrial stock.

**Last mile solution**  
It has excellent transport links providing logistics operators with a last mile depot destination, fulfilling urban logistic distribution functions inside the ULEZ and supporting the London economy in terms of access to the business and population structure.

12 WAXLOW ROAD, PARK ROYAL, LONDON

**An established location**  
G-Park London Park Royal is accessed via Acton Lane, one of the arterial roads within Park Royal. Park Royal is an established industrial location ideally situated to serve Central London to the East and the M40 and wider motorway networks to the West. Harlesden London Underground Station (Bakerloo Line) is within walking distance as is Willesden Junction British Rail Station.

**Close to central London**  
Its strategic location, close to Central London and its road and rail links, including access to the A40 Western Avenue and A406 North Circular roads, make it an important site in London's logistics network.

Location for G-Park London Park Royal

Park Royal industrial area

**A magnet for logistics giants**

Following years of traditional industrial decline, distribution functions now dominate the local market. Park Royal already provides for sizable distribution employers, such as Bestway, Brake Bros, DHL & several new film studios.

**A unit of scale, sustainability and functionality**

The shortage of larger units in the Park Royal area has led to a lack of opportunities for larger employer logistic occupiers seeking to expand in this location. GLP providing a unit of scale, sustainability and functionality should help to reduce shortage of supply.

# A dense and varied labour pool with excellent transport links

# Specifications including flexible docks and level access

The GLP Standard warehouse door provision comprises a combination of dock and level entry doors. The docking pack includes trailer lights, bollards, dock shelters and traffic lights on each dock position as standard. GLP only install equipment from market-leading providers.

Representative images

HGV  
parking

Dock  
doors

Level access  
provided

33m yard  
depth

33m yard depth and suitable for 44 tonne HGV traffic, ensuring quality and durability.

## FLEXIBLE OPERATION

Level access doors provide flexibility of movement between the warehouse and service yard for all types of vehicles – including forklift trucks.

## BARRIER PROTECTION

The yard also includes barrier systems to help prevent serious damage and minimise risk of accidents.

# A modern warehouse with an array of energy saving features

Our floors are designed and constructed using high quality materials and wherever possible are fully recyclable.

Our rooflights provide illumination during daylight hours, combined with energy efficient and intelligent lighting, this provides the optimal energy efficient solution for any type of operation.

Representative images

Energy-efficient LED lighting is used throughout.

## LARGE VISION PANELS

All our dock doors have large doubled glazed vision panels installed which allow operators to check for a docked vehicle before opening.

## OPTIMISING NATURAL LIGHT

Translucent panels provide illumination of the warehouse in daylight hours, reducing any operational requirements for lighting — and the associated running costs.

# Creating a modern office environment with cutting-edge enhancements

GLP recognises the importance of the office areas as places for people and the relevance of building design to facilitate health, well-being and productivity. Our buildings are designed to the principles of 'WELL Building' certification, whilst maintaining flexibility to enable ease of customer fit out.

Representative images

GLP washroom facilities are to a market-leading specification.

## MODERN RECEPTION

First impressions count. As such, the GLP reception area is contemporary, open, spacious and flooded with natural light.

## OPEN PLAN KITCHEN

Open plan kitchen and break out area, providing and supporting a collaborative working environment.

## MATERIAL BENEFITS

Contemporary panoramic windows and suspended ceiling tiles. The tiles are 100% fully recyclable and come with a wide range of performance benefits, including sound absorption and good light reflection properties.

## Towards Tomorrow

# Our guiding Sustainability Principles

At GLP, we're not just building warehouses, we're building a sustainable future for the logistics industry.

Towards Tomorrow, our commitment to ESG: develop and manage sustainable assets, govern with high ethics, promote well-being and value our ecosystem — goes beyond words. It's embedded in every aspect of our business, from the design and construction of our buildings to how we engage with our communities. We believe that sustainability is not just good practice, it's good business.

BREEAM® UK

### 1. DEVELOP AND MANAGE SUSTAINABLE ASSETS

We aim to create and manage sustainable buildings throughout their life cycle, offering exceptional service and contributing to a low-carbon future.

### 3. PROMOTE WELL-BEING

We promote a positive work environment, prioritising a safe, diverse, and inclusive workplace while investing in our colleagues' development and well-being.

### 2. GOVERN WITH HIGH ETHICS AND TRANSPARENCY

We operate with integrity and honesty, expecting the same from our partners. High ethical standards are fundamental to all our business activities.

### 4. VALUE OUR ECOSYSTEMS

We strive to adopt a holistic approach to contribute to the preservation of the natural ecosystem and the well-being of the communities surrounding our assets.

## SUSTAINABILITY THROUGH TECHNOLOGY

Many of our customers require their warehouse buildings to demonstrate excellent environmental performance.

GLP is now recognised across the world for delivering industry-leading warehouse buildings that continuously exceed our original environmental aspirations, while supporting our customers' business operations in many effective ways.

### Ratings and targets

BREEAM® UK New Construction 2018: Industrial (Shell and Core)

### RENEWABLE ENERGY FOR ALL GLP REMOVES THE BARRIERS

Our ambition is to become one of the leading renewable energy developers, investors and operators in Europe.

GLP will develop, own and operate the solar projects, removing the capital cost constraint for customers.
