COLOGNE SOUTH (BRUHL) LOGISTICS AND COMMERCIAL CENTRE

RHINE-RUHR ECONOMIC REGION

With around 14 million inhabitants, the Rhine-Ruhr metropolitan region is the most densely populated region in Germany and one of the most densely populated conurbations in Europe. It is one of the most economically dynamic regions in Germany and is characterised by an exceptional density of companies, consumers and infrastructure facilities. The location offers ideal conditions for companies that want to benefit from a large potential labour force, excellent customer reach and the synergies of a close-knit network of companies, service providers and suppliers.

The project site at Renault-Nissan-Strasse 6-10 in Brühl is embedded in an established commercial and logistics region in the Cologne area. The location offers ideal conditions for logistics companies, last-mile logistics and smaller commercial enterprises.

Thanks to the direct connection to the A553 motorway and quick access to the A1 and A61, the property is excellently integrated into the supra-regional transport network. Cologne city centre can be reached in just 20 minutes via the nearby A555, while the Rhine-Ruhr metropolitan region and the Benelux countries are just a short drive away. Rhine-Ruhr metropolitan region and the Benelux countries can also be reached in the motorway connections.

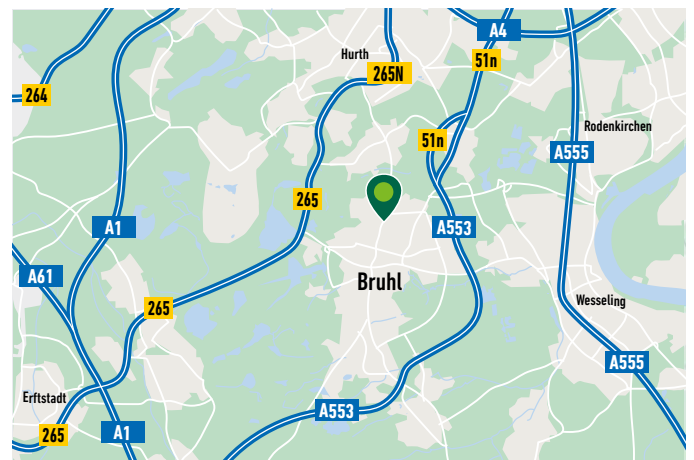

Strategic location

A strategically well-located site with good access to the A1, A61 und A555 motorways.
