Marq Logistics Kandel 2

Efficient value creation through strong transportation links

The commercial property at Barthelsmühlring 28 is particularly notable for its strategically advantageous location within an economically robust area. Its immediate proximity to the A65 highway and quick access to the A5 ensure excellent integration into the national transportation network. This allows for efficient access to key economic hubs such as Karlsruhe and the Rhine-Neckar metropolitan region, as well as neighboring French markets. This accessibility creates optimal conditions for commercial use, supports stable supply chains, and enables a high degree of planning certainty in day-to-day operations.

With its strong industrial base – characterized by internationally active companies in manufacturing, chemicals, automotive, mechanical engineering, and pharmaceuticals – the Rhine-Neckar region offers ideal conditions for value-added logistics processes and pre-assembly, particularly for time-critical just-in-time and just-in-sequence concepts. Proximity to key companies enables efficient management of goods flows along the entire supply chain—from delivery and warehousing processes to on-time redistribution.

The location is characterized by excellent availability of qualified workers in the fields of production, logistics, and administration. The industry-driven regional labor market offers robust expertise for operational, technical, and administrative functions, thereby constituting a significant

Designed

with well being in mind

ESG considerations are embedded into the design and operation of our logistics buildings throughout their lifecycle. Our developments incorporate energy-efficient systems, solar-ready roofs, smart metering and water management solutions to reduce environmental impact and support operational efficiency.

Sustainable construction approaches focus on lowering embodied carbon and supporting long-term adaptability, while thoughtful landscape and site planning contribute to biodiversity and user well-being. Together, these solutions deliver resilient, future-ready assets aligned with our customers' sustainability goals.
